***THE NEXT FRONTIER* DOCUMENTARY RECEIVES FOUR NORTHERN CALIFORNIA EMMY NOMINATIONS**

SACRAMENTO, Calif. – The Professional Engineers in California Government (PECG) is proud to announce that *The Next Frontier: Engineering the Golden Age of Green* has been nominated for four Northern California Emmy Awards presented by the National Academy of Television Arts & Sciences.

The Next Frontier received the following nominations:

- Outstanding Achievement, Documentary, *The Next Frontier*
- Outstanding Achievement, Host, Becky Worley
- Outstanding Achievement, Writer-Program, Brad Marshland, Filmsight Productions
- Outstanding Achievement, Graphic Arts - Graphics & Animation - Program, Charlie Canfield and Dionisio Ceballos

“We’re thrilled that the Academy has recognized *The Next Frontier* with four nominations,” said PECG President Matt Hanson. “*The Next Frontier* has already been broadcast to millions of people across the country and around the world. We hope these nominations will further expose this important educational documentary to viewers.”

The one-hour documentary focuses on the renewable, clean energy technologies that can improve our future and create significant economic and job opportunities. *The Next Frontier* has been shown on network stations in over 70% of the country and is being used in the classroom by teachers from California to Florida.

The Northern California Emmy Awards will be handed out on Saturday, June 11 at the Regency Center in San Francisco.

About *The Next Frontier*

*The film is produced by Filmsight Productions and sponsored by the Professional Engineers in California Government (PECG). PECG has sponsored several documentaries including *The Bridge So Far – A Suspense Story*, *Amazing: The Rebuilding of the MacArthur Maze* and *A Span in Time*.
